

## Carbon Reduction Plan

Company name: United Guarding Services Ltd

Publication date: 4<sup>th</sup> March 2024

### Commitment to achieving Net Zero

United Guarding is committed to achieving Net Zero emissions by 2030.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                  |

| United Guarding Services Ltd has measured carbon emissions since 2019 and reported them since 2022. This reporting has been verified to the ISO14046:1 standard. The data for the emissions sources required by PPN06/21 has been drawn out from this verified data set. The Company has set a target to reduce emission 45% by 2030 against a 2021 baseline, which our Company approach is compliant with. The Company target is a similar scope of emissions as required by PPN06/21. |                                  |

## Current Emissions Reporting

| Reporting Year: 2023          |                             |
|-------------------------------|-----------------------------|
| EMISSIONS                     | TOTAL (kgCO <sub>2</sub> e) |
| Scope 1                       | 10,426                      |
| Scope 2                       | 4,200                       |
| Scope 3<br>(Included Sources) | 18,500                      |
| Total Emissions               | 33,126                      |

## Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

- United Guarding Services Ltd is targeting net zero emissions across all its activities by 2030. This target includes the full activity of our supply chain working on our behalf. This target includes all emission sources covered in PPN06/21
- United Guarding Services Ltd also aims for a 45% reduction in Scope 1 and 2 emissions by 2030, this is measured from a 2021 baseline.

We project that carbon emissions will decrease over the next five years to 26,000 kgCO<sub>2</sub>e by 2030. This is a reduction of 45%.

Progress against these targets can be seen in the graph below:

## Carbon Reduction Projects

Completed Carbon Reduction Initiatives:

The following environmental management measures and projects have been completed or implemented since the **2021** baseline. The carbon emission reduction achieved by these schemes equate to 15,686 kgCO<sub>2</sub>e to date, a 32% reduction against the 2021 baseline .

Carbon reduction initiatives implemented to date.

- Electric company cars
- Low carbon development of United Guarding Services London office
- Promotion of Cycle to Work Scheme
- Encouraging use of public transport
- Installing Solar panels
- Installing LED lighting
- Offsetting our emissions

In the future we hope to implement further measures such as:

- Net zero vehicle policy
- Low carbon development of United Guarding head office
- Roll out of carbon training.
- Zero carbon supply chain collaboration
- Implementation of zero waste strategy
- Implement carbon removal strategy.

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions will be reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or

equivalent management body).

**Signed on behalf of the Company:**

A handwritten signature in black ink, appearing to read 'M. Collyer', is written on a light blue background.
